

We made it!

We got the Gold!!!

Well, what to add - We took the Gold!

Our YourMASK **was announced the Czech product of 2020** in the textile category! We are very happy and we appreciate it very, very much!!! Our sincere thanks go to all our partners, and especially to our dear customers.

Without your support, this victory would not be possible.

We take this award mainly as a commitment to the future, as a motivation for further work, not only in the field of textile protective equipment, but in nanotechnology as a whole.

Your N4H Team
